REASONS FOR ALLOWANCE

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Maitenaz (US 4,292,501), Thomas et al (US 4,481,404), and Meyer (US 6,232,584).

The following is an examiner's statement of reasons for allowance: allowance of claims 9-29 is indicated because the prior art of record does not show or fairly suggest the temperature of a baking oven is controlled using a control signal to maintain the oven chamber temperature substantially constant, wherein the control signal is generated based on a control state which is a function of electrical sensor signals from the oven chamber temperature sensor and the catalyst temperature sensor and is reached when the catalyst temperature is higher than the oven temperature and the difference between the temperatures thereof is at least increasing and exceeds (as recited in claim 19) or at least equal (as recited in claim 29) a threshold value. It is noted while the prior art discloses different systems having catalyst controls, the difference between the oven and catalyst temperatures is not increased as the catalyst temperature is higher than the oven temperature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tu Ba Hoang whose telephone number is (571) 272-4780. The examiner can normally be reached on Mon-Thu from 6:00AM to 6:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Elvin Enad can be reached on (571) 272-1990. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
